**NAVIGATING THE NEW CARBON FRONTIER:
UNLOCKING LIQUIDITY, COMPLIANCE, AND HIGH-INTEGRITY MARKETS**

8&9 December 2026, Sheraton Hotel Gandaria City, Jakarta, Indonesia

Green Economy Council Chairman's Welcome

In the pursuit of achieving 2045 Golden Indonesia, ensuring environmental sustainability and preservation has become a top priority to guarantee that future generations can enjoy a higher quality of life. This goal also addresses the strategic challenge of climate change management and control, which is becoming increasingly urgent. Cross-sector synergy is essential to tackle the global climate crisis that is now more evident than ever. Embracing the values of Prabowo-Gibran's campaign of Asta Cita, the new administration envisioned an agency designed to coordinate various mitigation and adaptation efforts to combat climate change, including carbon trading, ensuring that Indonesia can fulfill its commitment to achieving Net Zero Emissions.

The initiative will provide opportunities for both domestic and international public and private sectors to initiate actions to reduce greenhouse gas emissions across industries such as energy, transportation, infrastructure, agriculture, marine, and deforestation, all of which will be utilized to their fullest potential for the welfare of the people. It is hoped that the initiative will support a national economic growth rate of 8% through the development of green and blue economies, reinforcing Indonesia's position as a sovereign nation.

Together, we move forward. Together, we build a prosperous Indonesia on the path to 2045 Golden Indonesia.

Sincerely,
Indonesia Carbon Trade Association
Prof. Dr. (HC) Ir. Burhanuddin Abdullah, M.A.
IDCTA Honorary Council Chairman

Chairman's Welcome

Indonesia's carbon market is entering a defining phase. With the regulatory foundation continuing to evolve and international cooperation expanding, our next priority must be to accelerate market readiness and translate this momentum into greater participation, stronger demand, and tangible market activity.

This ambition is at the heart of the Carbon Digital Conference (CDC) 2026, under the theme **"Navigating the New Carbon Frontier: Unlocking Liquidity, Compliance, and High-Integrity Markets."** CDC 2026 is designed not only as a forum for dialogue, but as a platform where policymakers, businesses, project developers, financial institutions, carbon buyers, technology providers, and international partners can come together to turn opportunities into action.

A key focus this year will be **accelerating market readiness**. As Indonesia strengthens its carbon market ecosystem, we need to ensure that market participants are equipped to respond to evolving regulations, growing expectations for integrity, and increasing opportunities for domestic and cross-border transactions.

To support this objective, CDC 2026 will feature the **Carbon Bazaar**, a dedicated platform to showcase carbon projects and connect project developers with potential buyers, investors, and strategic partners. Through direct engagement and **Business Matching**, we hope to help bridge the gap between carbon supply and demand and encourage more concrete market opportunities.

We are also pleased to present another **dedicated Japan market session**, reflecting the importance of Japan as a strategic partner for Indonesia's carbon market development. This session will provide a focused platform to deepen engagement between Indonesian and Japanese stakeholders, explore opportunities for carbon trading and investment, and strengthen collaboration between the two markets.

Our aspiration is clear: to move beyond discussion toward implementation.

On behalf of the Indonesia Carbon Trade Association (IDCTA), I invite all our partners and stakeholders to join us at CDC 2026 and be part of shaping the next chapter of Indonesia's carbon market.

Dr. Riza Suarga

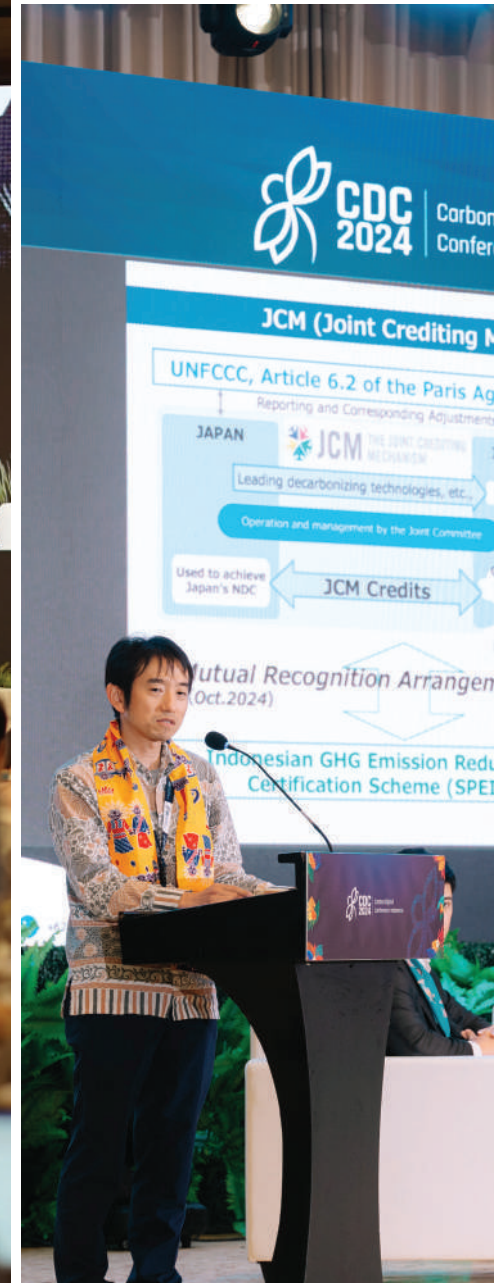

Chairman

Indonesia Carbon Trade Association

Journey of CDC

Since its launch in 2023, Carbon Digital Conference has grown from an early-stage carbon market dialogue into one of Indonesia's most strategic annual platforms for carbon market collaboration. Hosted by the Indonesia Carbon Trade Association, IDCTA, CDC has consistently brought together the full carbon value chain: carbon asset owners, carbon project developers, investors, regulators, digital technology providers, carbon credit buyers and off-takers.

CDC is the annual flagship event of IDCTA, and CDC 2025 was officially positioned as the third year of the conference. The event connects leaders, innovators, policymakers, businesses and youth to accelerate Indonesia's transition toward a sustainable low-carbon economy.

2023: The Beginning of Indonesia's Carbon Market Convening Platform

Carbon Digital Conference 2023 was held on 8 to 10 November 2023 at The Apurva Kempinski, Bali. The event was organized by IDCTA together with members and domestic and international partners, with the objective of supporting Indonesia's Nationally Determined Contribution targets and the successful development of Indonesia's carbon exchange.

CDC 2023 established the foundation for a new kind of climate event in Indonesia: one that did not only discuss sustainability in general, but focused on the practical carbon market ecosystem. It created a meeting point for carbon stakeholders at a time when Indonesia was preparing its national carbon trading infrastructure.

2024: Expanding Into Finance, Digital MRV and Global Integrity

Carbon Digital Conference 2024 was held on 9 to 11 December 2024 at the Four Seasons Hotel, Jakarta. IDCTA's official history lists CDC 2024 as the second edition of the conference, following the 2023 Bali edition.

The 2024 theme, **"Reimagining Indonesia Carbon Market: Digital Innovations for Global Integrity,"** reflected the market's shift from awareness-building toward integrity, finance and technology. The program covered climate, legal, policy, finance and trade topics, including project developers and digital players, MRV standardization, AI and IoT for climate programs, carbon project contracts, financial services opportunities, carbon tax, investment in carbon projects from landowners to off-takers, digital exchange infrastructure and Indonesia's role in Asian carbon market development.

This edition strengthened CDC's position as a practical platform where project owners, investors, market infrastructure providers and regulators could discuss how Indonesia's carbon market should scale with credibility.

2025: Moving From Ambition to Implementation

Carbon Digital Conference 2025 was held on 7 to 10 December 2025 at the Bandung Institute of Technology, ITB, Bandung, according to IDCTA's official event history.

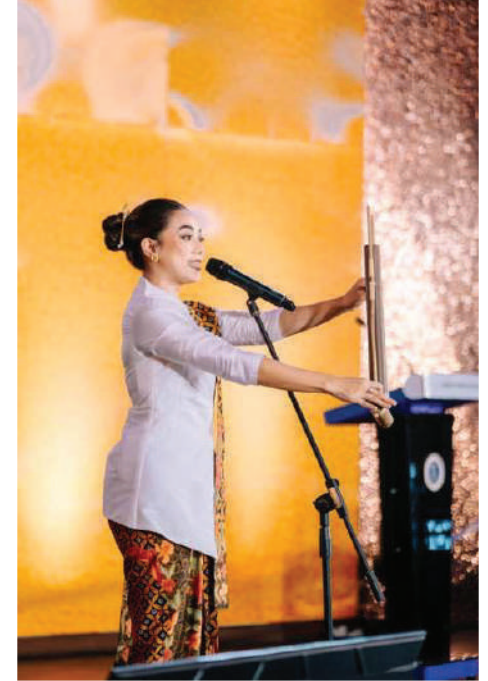

CDC 2025 carried the theme **"From Capture to Credit: Digital Pathways for Indonesia's Carbon Future."** The conference was presented as IDCTA's annual flagship event and its third year, with more than 300 attendees, more than 15 sub-themes and participation from companies, institutions and organizations.

The 2025 agenda showed CDC's evolution into a platform for implementation. Sessions included Indonesia's Carbon Market Key Regulatory Development for 2025, REDD+ Jurisdictional and Nested Systems Workshop, CO2 Injection Demo, Overview Regulation Landscape Update: Life After MRA, and CCS and CCUS sessions for oil and gas and non-oil and gas sectors.

CDC 2025 also aimed to bring together innovative digital players, carbon project developers, investors and carbon credit off-takers on a global scale, with sub-goals including optimizing Indonesia's carbon resources and market potential, ensuring high-integrity carbon projects through digital technology, and strengthening the role of non-state actors in voluntary carbon market discourse.

ABOUT CDC 2026

Premier Carbon Market Platform

CDC2026 brings together policymakers, investors, project developers, technology providers, corporate buyers, and international organizations to advance carbon market collaboration, investment, and innovation across Asia.

Accelerating Market Readiness

Focused on strengthening market readiness and expanding participation, CDC2026 promotes buyer commitments, capacity building, and strategic collaboration with regional partners including Japan, South Korea, and Singapore.

Driving Innovation & Finance

Explore digital financing mechanisms, Digital MRV, co-benefits monitoring, and emerging technologies that enhance transparency, efficiency, scalability, and investor confidence in carbon markets.

Building Indonesia's Carbon Hub

Through knowledge exchange, business matching, and cross-border partnerships, CDC2026 accelerates climate finance and positions Indonesia as a trusted Asia-Pacific carbon market hub.

OBJECTIVES

To strengthen Indonesia's position as a leading carbon market player in Asia by **enhancing market readiness, mobilizing buyer commitments**, fostering international collaboration, and **accelerating climate finance** through digital innovation.

SUB-GOALS

Strengthening Market Readiness
and Capacity Building

Expanding Buyer
Commitments and Strategic
Partnerships

Accelerating Climate
Finance and Digital
Innovation

1. Indonesia Carbon Market Policy & Regulatory Update

2. CCS/CCUS & Technology-based Carbon Removal

3. Agriculture Carbon Projects

4. Nature-based Solutions

5. Corporate Net Zero & SBTi

6. Carbon Finance & Investment

7. Digital MRV, AI & Carbon Registry

8. International Carbon Collaboration

9. Indonesia-Japan Dedicated Market Session

10. Carbon Bazaar

11. Business Matching

12. Carbon Market Infrastructure & Ecosystem Development

WHY CDC 2026 MATTERS NOW

A New Era for Indonesia's Carbon Market

The issuance of Permenhut No. 6 Year 2026 marks a significant milestone, providing renewed momentum for forestry carbon, carbon trading mechanisms, greenhouse gas emission offset projects, Digital MRV, and international carbon market engagement.

Accelerating Carbon Project Development

The new regulatory framework provides greater certainty for developing high-integrity carbon projects, including forest conservation, reforestation, peatland restoration, mangrove protection, biodiversity conservation, and other nature-based climate solutions.

Meeting Growing Demand for High-Integrity Carbon Credits

As voluntary and compliance carbon markets continue to expand, corporate buyers are increasingly seeking carbon credits that are transparent, verified, traceable, and deliver measurable environmental and social benefits.

Unlocking Investment and Climate Finance

CDC 2026 provides a platform to connect carbon projects with investors, climate finance institutions, and strategic partners to accelerate project implementation and commercialization.

Showcasing Innovation and Digital Solutions

The conference highlights the latest developments in Digital MRV, satellite monitoring, AI, geospatial technologies, carbon registries, and digital platforms that strengthen market transparency and integrity.

Expanding Regional and International Collaboration

CDC 2026 facilitates partnerships with regional carbon markets and international buyers, particularly from Japan, South Korea, Singapore, and other emerging demand centers.

PERBANAS
INSTITUTE

2026 Program Pillars

Regulation, Compliance and Market Integrity

Sessions on carbon market rules, Ministry of Forestry implementation updates, offset mechanisms, carbon unit eligibility, registry systems, authorization, corresponding adjustment and buyer due diligence.

Forestry Carbon Project Readiness

Practical discussions on project design, land eligibility, social forestry, customary forests, forest concession areas, baseline development, additionality, validation, verification and benefit sharing.

Digital MRV and Carbon Data Infrastructure

Technology showcases on satellite monitoring, remote sensing, AI, IoT, blockchain, digital registries, geospatial platforms and project-level monitoring tools.

Carbon Finance, Buyers and Offtakers

A business track for corporate buyers, investors, banks, insurers, exchanges, brokers and project developers to explore financing, offtake structures and long-term demand.

Communities, Social Forestry and Inclusive Carbon Value

A dedicated space for local communities, social forestry groups, indigenous stakeholders and civil society to discuss participation, safeguards, governance and fair benefit distribution.

Industrial Decarbonization and Carbon Management

Sessions on corporate decarbonization, ESG strategy, CCS and CCUS, carbon procurement and the role of high-quality credits in transition planning.

Youth, Research and Innovation

A youth and academic track featuring competitions, innovation showcases, research presentations and talent networking.

Target Participants

CDC 2026 will be designed for high-value participation from:

Segment	: Participant Profile
Government and regulators	: Ministries, agencies, provincial governments and policy institutions
Forestry sector	: PBPH holders, forest managers, conservation actors, social forestry groups and customary forest representatives
Carbon market actors	: Project developers, carbon consultants, verifiers, registries, exchanges, brokers and standard bodies
Corporate buyers	: Companies with net zero, ESG, Scope 1, Scope 2 and Scope 3 strategies
Finance and investment	: Banks, asset managers, blended finance platforms, development finance institutions, insurers and impact investors
Technology providers	: MRV platforms, satellite data companies, AI, IoT, blockchain, traceability and climate data firms
Academia and youth	: Universities, researchers, students, youth organizations and innovation communities
Media and civil society	: Journalists, NGOs, think tanks and public policy organizations

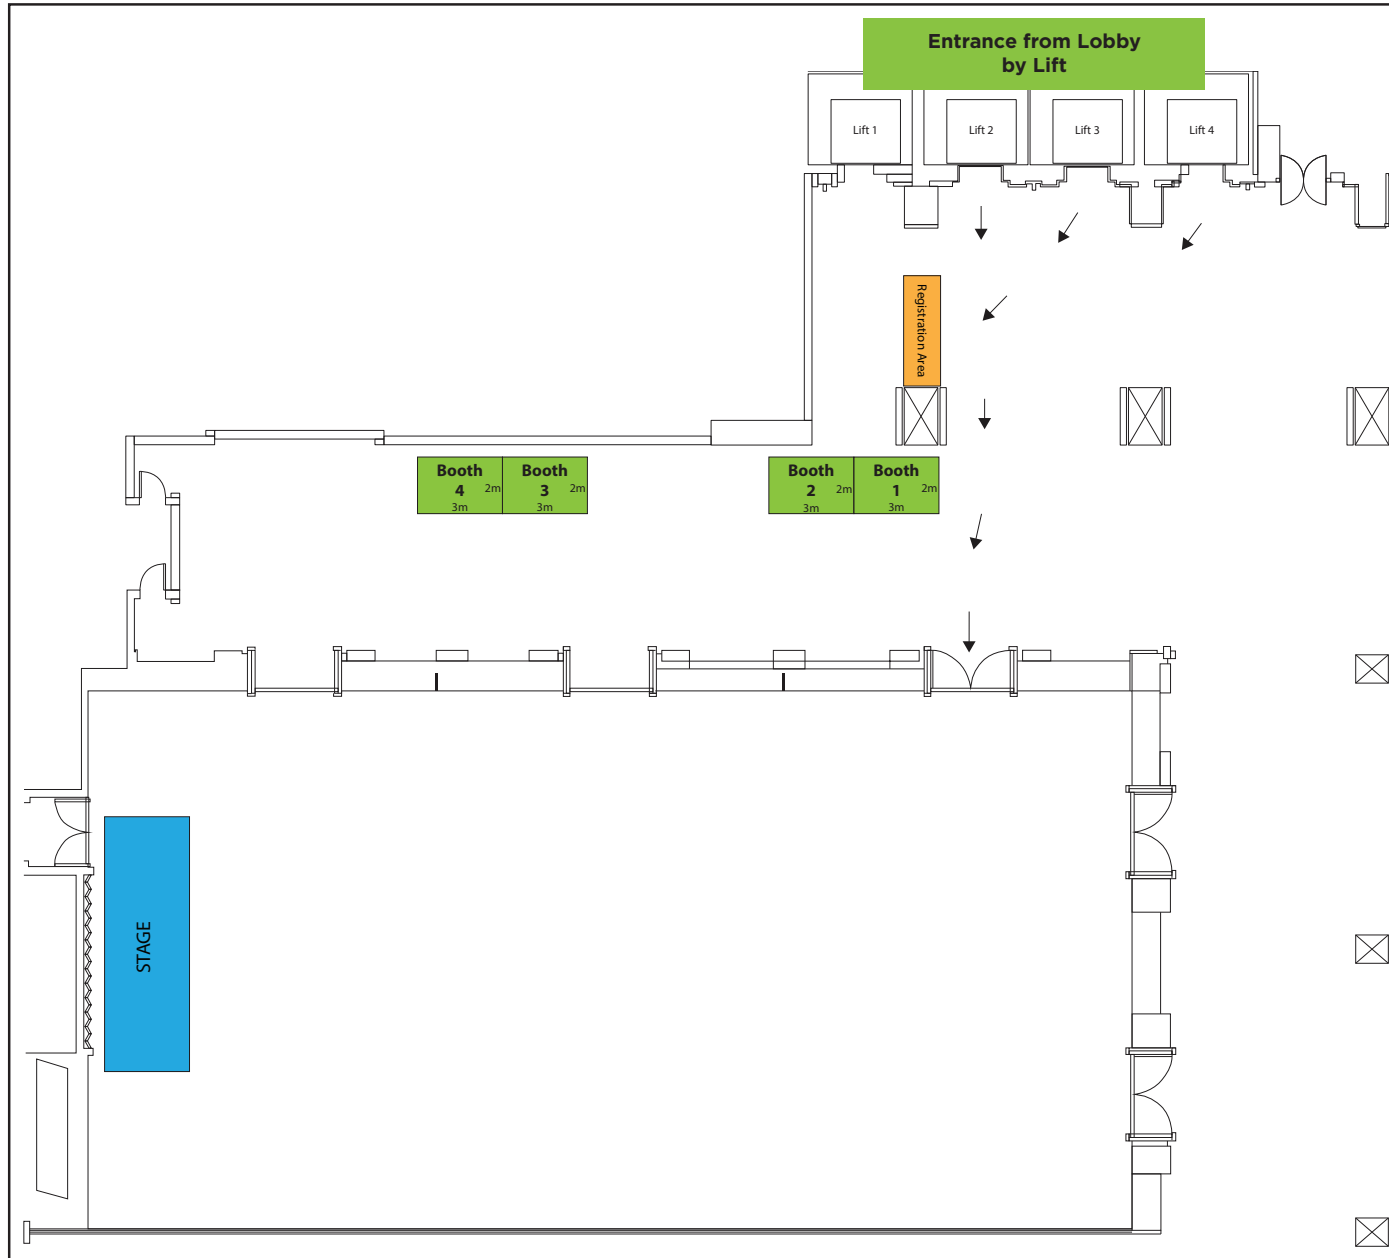

Sponsorship Value Proposition

By sponsoring Carbon Digital Conference 2026, your organization will:

- **Lead the conversation**
Position your company as a thought leader in carbon markets, digital trust, forestry sustainability, green finance or climate technology.
- **Connect with decision makers**
Engage with policymakers, project owners, buyers, investors and technical experts in a curated environment.
- **Showcase solutions**
Demonstrate your technology, financing model, project portfolio, advisory capability or sustainability commitment to a targeted audience.
- **Build market trust**
Associate your brand with transparency, integrity, collaboration and high-quality carbon market development.
- **Generate business opportunities**
Access B2B meetings, project pipelines, buyer discussions and partnership opportunities.
- **Support measurable impact**
Contribute to youth engagement, community participation, nature-based solutions and Indonesia's broader climate goals.

Exhibit at CDC 2026

Showcase Your Business. Connect with the Carbon Market.

Carbon Digital Conference 2026 (CDC 2026), the largest carbon project developers convention in the region, offers companies an opportunity to showcase their products, technologies, projects, and services to key stakeholders across the carbon market ecosystem.

The exhibition provides direct access to carbon project developers, corporate carbon credit buyers, investors, financial institutions, government representatives, technology providers, and sustainability leaders, creating opportunities for networking, business development, and strategic partnerships.

Exhibition Opportunities

CDC 2026 offers **four exhibition spaces**, providing exhibitors with visibility and opportunities to engage with conference participants throughout the two-day event.

- **Exhibition Spaces:** 4
- **Minimum Booth Size:** 2 m × 3 m (6 sqm)

Plenary Session Sponsor

Sponsor one of the high-level plenary sessions featuring government leaders, international organizations, industry experts, investors, and corporate executives discussing strategic issues shaping the future of Indonesia's carbon market.

This sponsorship allows your organization to be directly associated with a specific conference theme and engage with a highly targeted audience relevant to your business.

Available Plenary Sessions

- Indonesia Carbon Market Policy & Regulatory Update
- Agriculture Carbon Projects
- CCS/CCUS & Technology-based Carbon Removal
- Nature-based Solutions
- Corporate Net Zero & SBTi
- Carbon Finance & Investment
- Digital MRV, AI & Carbon Registry
- International Carbon Collaboration
- Indonesia-Japan Carbon Market Session

Benefits

- Exclusive branding throughout the sponsored plenary session
- Company logo displayed on the session backdrop and presentation screen
- Sponsor acknowledgement by the session moderator
- Opportunity to deliver a 3-5 minute opening welcome remarks
- Company profile featured in the Conference ProgrammeBook
- Logo placement on the conference website and event mobile application (if applicable)
- Priority seating for company representatives
- Complimentary delegate passes
- Social media acknowledgement before the conference

IDR 100 mio per Session + 11% VAT

Carbon Bazaar Sponsor

Support Indonesia's first Carbon Bazaar, showcasing carbon projects, technologies, digital solutions, and climate innovations.

Benefits

- Branding throughout exhibition hall
- Exhibition booth
- Opening ceremony recognition
- Featured in Carbon Bazaar promotions

IDR 75 mio + 11% VAT

Business Matching Sponsor

Sponsor exclusive B2B meetings connecting project developers, investors, buyers, and financial institutions.

Benefits

- Branding inside meeting area
- Sponsor recognition
- Priority participation
- Hosted meeting table

IDR 75 mio + 11% VAT

Networking Session Sponsor

As a Networking Sponsor (Lunch/Dinner/Coffee Break/Cocktail Reception), your brand will be at the heart of where the best connections are made.

This package offers a unique opportunity to engage with attendees in a relaxed and social setting, where discussions about partnerships and collaborations often take shape. Sponsor a networking event to ensure your brand leaves a lasting impression on key industry stakeholders.

Benefits: Banner networking logo, Sponsor announcement, and Sponsor short introductory speech/presentation.

IDR 100 mio per Session + 11% VAT

Cocktail Networking Sponsor

As a Networking Sponsor (Lunch/Dinner/Coffee Break/Cocktail Reception), your brand will be at the heart of where the best connections are made.

This package offers a unique opportunity to engage with attendees in a relaxed and social setting, where discussions about partnerships and collaborations often take shape. Sponsor a networking event to ensure your brand leaves a lasting impression on key industry stakeholders.

Benefits: Banner networking logo, Sponsor announcement, and Sponsor short introductory speech/presentation.

IDR 50 million + VAT

Session Sponsor

Become a Session Sponsor and take center stage by aligning your brand with a specific session during the event.

Sample CDC 2025 Session Packages:

1. Regulatory Landscape Overview & Update: Life After MRA
2. Latest Developments in Oil and Gas CCS Projects
3. Latest Developments in Non-Oil and Gas CCS Projects
4. Overview of Global CCS Implementation: Challenges and Solutions
5. Making Carbon Projects CORSIA-Eligible: Alignment with Other International Standards
6. Optimizing Other Land Use & Non-Forest Negative Emission Solutions: Opportunities and Pilot Projects
7. ASEAN Common Carbon Framework: Updates on Financial Ecosystem Support and Pilot Projects
8. Japanese Special Session: JCM Projects and GX League Developments Led by JETRO
9. Contract Signing and Project Launch Ceremonies
10. Carbon Bazaar
11. Business Matching

This package provides your organization with recognition as a thought leader in a key topic area, offering targeted visibility to a highly relevant audience. By sponsoring one of our expert-led sessions, your organization will not only enhance its influence within the carbon ecosystem but also demonstrate a strong commitment to advancing sustainable and innovative climate solutions.

Benefits: Backdrop session logo, Sponsorship announcement by moderator, One speaker slot.

IDR 100 mio per Session + 11% VAT
