Carbon Digital Conference 2026

Plenary 1

Indonesia's Carbon Market Update: Policy, Regulation & Road to Article 6.2

Date: 8-9 December 2026

Venue: Sheraton Grand Jakarta Gandaria City
Jakarta, Indonesia

I. About CDC 2026

The Carbon Digital Conference (CDC) is the flagship annual international conference organized by the Indonesia Carbon Trade Association (IDCTA) to convene policymakers, market participants, investors, project developers, financial institutions, technology providers, and international organizations in advancing Indonesia's carbon market ecosystem.

Following the successful implementation of previous conferences, CDC2026 marks another important milestone as Indonesia enters a new phase of carbon market development. The implementation of the new Presidential Regulation No. 110/2025, the strengthening of Indonesia's National Registry System (SRN-PPI) and Unit Carbon Registry System (SRUK), increasing international cooperation under Article 6.2 of the Paris Agreement, and growing demand for high-integrity carbon credits have created significant momentum for Indonesia to become a regional carbon market hub.

However, despite abundant carbon resources, market growth continues to face several challenges, including:

- limited market liquidity;
- insufficient corporate demand;
- financing constraints for project development;
- evolving international compliance requirements;
- fragmented digital monitoring systems;
- the need for Internationally recognized methodologies and standards that aligns with Indonesia's unique landscape.

CDC2026 is designed to address these challenges by bringing together domestic and international stakeholders to accelerate market readiness, strengthen buyer confidence, mobilize investments, and expand international market access.

The conference also introduces several new initiatives, including the Carbon Bazaar, dedicated Indonesia–Japan collaboration sessions, business matching programmes, and discussions on innovative financing mechanisms to support the scaling of Indonesia's carbon economy.

II. Plenary Session Details

- **Title**

Indonesia's Carbon Market Update: Policy, Regulation & Road to Article 6.2

- **Description**

This session will provide an overview of Indonesia's evolving carbon market landscape, highlighting key government priorities, regulatory developments, and initiatives shaping the country's carbon market and international cooperation.

The session will feature remarks from government dignitaries, followed by government signing ceremonies and updates on key regulatory and market infrastructure developments. Speakers will provide insights into the latest government regulations, the development of the Sistem Registri Unit Karbon (SRUK), and Indonesia's progress in strengthening its domestic carbon registry and international registry connectivity.

As Indonesia continues to strengthen its carbon market framework and expand participation in international carbon markets, effective regulation, transparent carbon accounting, and robust registry infrastructure will be essential. The session will highlight the opportunities and challenges associated with these developments, including regulatory alignment, data integrity, interoperability, and international market access. Participants will gain a clearer understanding of Indonesia's current policy direction and the key developments expected to shape the country's carbon market in the coming years.
